

# 1.1 Navigating Avenue

This tutorial briefly discusses the Avenue interface. Future tutorials go into detail about important features.

## STEP 1

Below, you see the Avenue home page. You can see any announcements you've made, a content browser, and assessment updates to the right.

### Navigation Tips:

To always return to the home page, select the name of your course located at the very top.

Selecting drop down arrows throughout Avenue gives you access to additional settings.

**Content:** Upload and organize all content you share with students.

**Resources:** Access tool such as the course builder. The majority of this tab is not of significance.

**Communication:** Access communication tools such as blog, chat, and discussions.

**Assessments:** Create assignment drop boxes, a gradebook, and quizzes.

**PebblePad:** This tab is not of importance.
