

1.2.1 Creating Modules

This tutorial covers how to create modules. It is extremely important you use modules to organize your content for students.

STEP 1

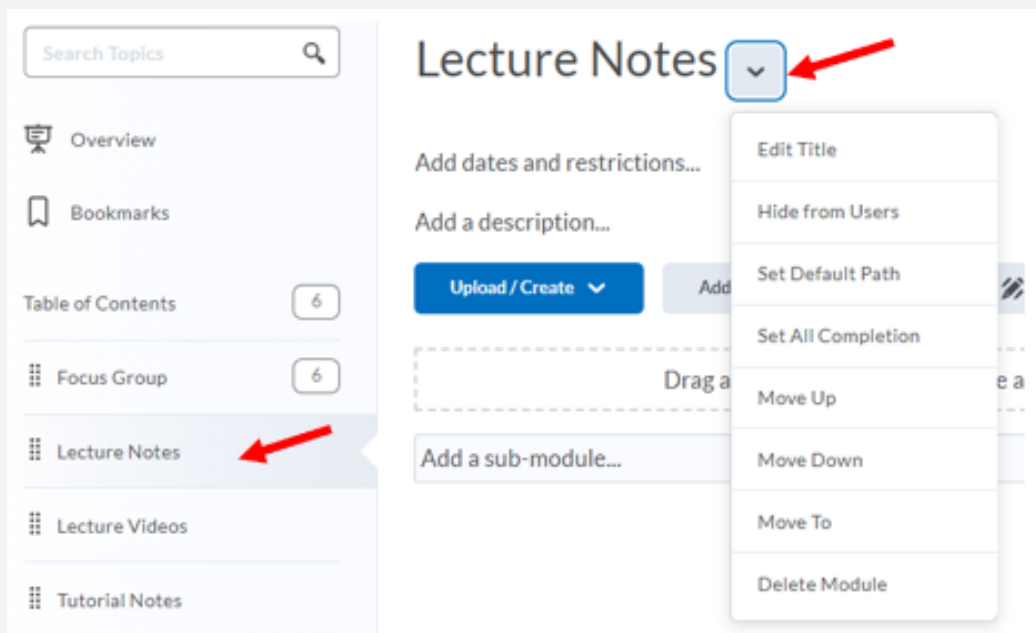

Navigate to the **Content** tab from the Avenue homepage. Select **Add a module**. Type in your name and press Enter. You can create as many modules as you want.

An example of a set of organized modules. To move modules around drag the 6 dots to the left of the module name.

STEP 2

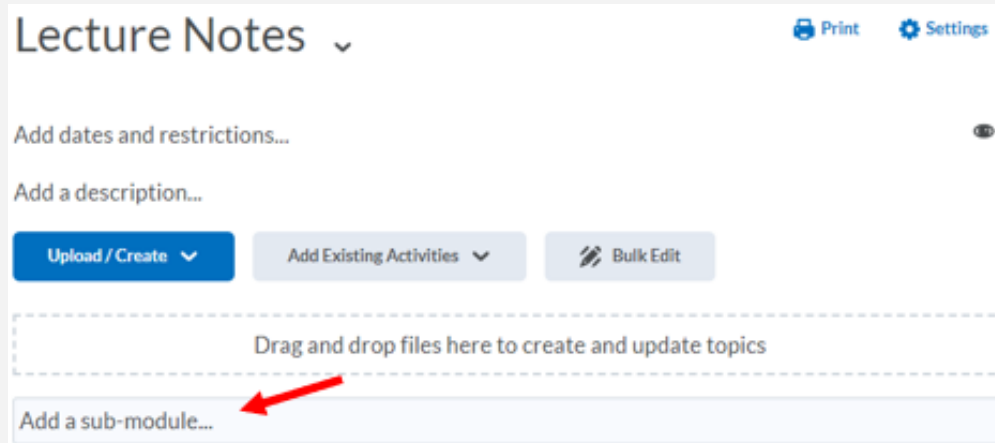

You can edit your module after you create it. Choose your module and select the **drop down** arrow next to the title. You can also delete modules and add descriptions here.

1.2.1 Creating Modules

STEP 3

Within a module you can create optional sub-modules to organize more. To use these, select your desired module and press **Add a sub-module**. Type in the name and press Enter to complete.

The screenshot shows the 'Lecture Notes' module interface. At the top, there is a title 'Lecture Notes' with a dropdown arrow, and two icons: 'Print' and 'Settings'. Below the title, there are two text input fields: 'Add dates and restrictions...' and 'Add a description...'. Underneath these fields are three buttons: 'Upload / Create' (blue), 'Add Existing Activities' (grey), and 'Bulk Edit' (grey). A dashed box contains the text 'Drag and drop files here to create and update topics'. At the bottom, there is a light blue button labeled 'Add a sub-module...' with a red arrow pointing to it.
