

# 1.6.1 Adding Quiz Questions

This tutorial covers the basics of adding questions to a quiz. This tutorial continues from **Tutorial 1.6** step 2.

## STEP 1

With your quiz open, under the Properties tab and under Quiz Questions, select **Add/Edit Questions**.

Quiz Questions

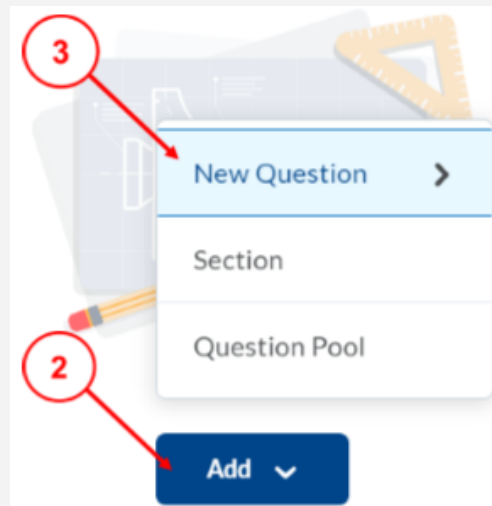

Questions per page:

Paging:  Prevent moving backwards through pages

Shuffle questions at the quiz level  
Also shuffles sections at the quiz level. Does not cascade

## STEP 2

Select **Add** then select **New Question**

## 1.6.1 Adding Quiz Questions

### STEP 3

Several question types appear. Select your desired format. Explanation for each question type can be found in further **1.6 Tutorials**. You will notice as you add in questions, each question will preview on the right of the screen. If it does not preview, there will always be a **Preview** button at the bottom of the window.

NOTE: When completing questions, you will notice an **Options** button to the right. Select this to see more editing capabilities for each type of question.

### STEP 4

After adding your first question, to add further questions select **Add**.

### STEP 5

Once you're finished, select **Back to Settings** to exit.
