

## 1.7.3 Tools

This tutorial introduces the Tools feature. In tools you can decide what students can see in their navigation bar. It can be helpful for students to clean up the look of your course shell and only show them features they need to see. You can also deselect some features you do not want to see from the instructor side as well.

### STEP 1

Navigate to **Course Admin --> Tools** from the Avenue homepage. To turn features off for students or yourself, select the boxes under **Status**.

#### Tool Status - OTHER\_1P03\_TEST\_hassae3\_CONT\_17 (Continuing)

Tool Name	Custom Navbar Name	Status
Accelerator	<input type="text"/>	<input checked="" type="checkbox"/> 
Advanced Data Sets	<input type="text"/>	<input checked="" type="checkbox"/>
