

2.3.5 Website Tab in Teams

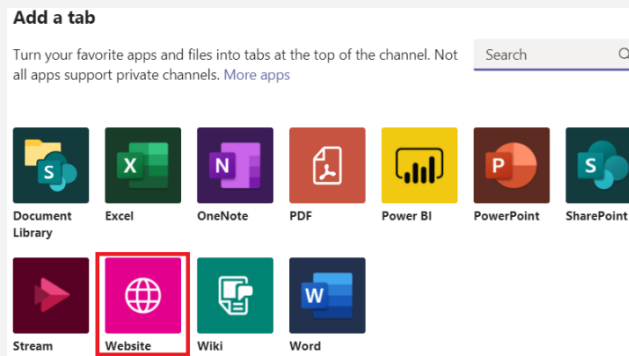

This tab acts as an internet browser within Teams. The link you provide will open in the tab.

NOTE

The PDF must already be uploaded to the files tab within your channel before proceeding

STEP 1

Select **Website** from **Add a Tab**

STEP 2

Enter the Tab Name and URL for the website you are linking to

Note: Teams only allows links that begin with `https://`

STEP 3

The Tab will be created and ready for viewing
